Community has been used to fund a wide range of for-profit, entrepreneurial ventures such as artistic and creative projects, medical expenses, travel or community-oriented social entrepreneurship projects.

This is where Donation can help. Donation is where you get a lot of people to invest in your idea, rather than finding one person to come up with everything you need. Instead, you can use a Community platform to manage all the collections and give you a central location to share your idea's and all the materials and videos that explain what you're trying to accomplish. Once you reach your desired goal, you're expected to begin to work on your project.
